

February 18, 2015,

This past month has been very productive. i have secured the proper materials, including respirators, for processing the old documents in our safe. A voucher for the purchase has been submitted for those supplies. Thanks to councilman Frank Romanowski for showing me how to get the safe open.

On February 11, 2015 I attended the Amboy Historical Society's meeting, as an invited guest. Mutual cooperation between my office and the society was solidified, agreeing to work on projects together. Lisa Smithers has agreed to help me with the safe project, in return I am assisting the society with the Oswego County Tourism Brochure. I feel this the beginning for working together in the future in preserving Amboy's rich history. To keep this momentum, I will continue to attend the society's monthly meetings as an invited guest.

I have also submitted, for Board approval, the 2015 dues form for the Association of Public Historians of New York State (APHNYS). There will also be an upcoming conference in Corning. April 9-12, 2015 of which I will be approaching the Town Board for my attendance.

Finally, I have received a request from John Legnetto, from the Paul James Oiszewski Land Surveying, regarding a project they are involved with on Foil road. I will be contacting Mr. Legnetto concerning his request.

Respectfully submitted,

Tim Kelley'  
Town of Amboy Historian
