

# MARCH 2015 REPORT

Well we have had a break in the winter weather, so we have been able to start getting equipment serviced and ready for spring/summer schedule. It looks like it is going to be a very busy spring/summer.

I have been out getting my schedule ready for spring/summer jobs. We are going to be busy filling/repairing potholes. There has been more and more showing up. Plan on doing tree work until things start drying up. Then start on major projects.

I plan on filling the empty full-time position April 1, 2015. I have been having a lot of resumes/applications coming in. I'm going to be very picky on who I hire to fill the position.

The 2013 International is back out to International Stadium. Still having issues with it, our newest truck with the most problems. I have some bills that I'm working on International to pay, such as the towing and power steering repair.

Had to purchase a new air compressor. The old one had a bad compressor motor. They wanted \$2000 for a new motor, went up to Tractor Supply and purchased one for \$1300 with a 3 year warranty.

I turned in a list of equipment I'm putting up for Auction. Everything does not have to sell. If it doesn't bring enough, we have the right to reject all bids. If you have any questions feel free to ask.

Sincerely,

John Perkins III

Highway Supt.
