

APRIL 2015 REPORT

Last month I was excepting resumes, I received 15 and I hired Lon Castor. Lon worked for the State Highway for 5yrs and was in the service. . I feel I made the right choice. He has a class A license with many endorsements

The guys have put down about 3 tons of cold patch and there is a little more until we start spray patching.

The oil truck is all serviced and ready to go, along with lawn mowers. I plan on tarring down 05 and 13 next week so we can start doing road work on Stone Hill Rd. as soon as it dries up. I figure 2 weeks for that maybe a little more depending on the weather. Been picking up snow stakes an started sweeping roads. Want to do some more ditching and shoulder work. We all know that good drainage is what keeps a good road in shape and sunlight.

The auction has closed today 4/13/15, some stuff went average. I have attached a copy of what things went for.

The bull pen is all wired and have been doing some painting.
